

JOSE CASTRO

JUNIOR FULLSTACK DEVELOPER

(+34) 634150 481

josejqcastro@gmail.com

[Portfolio](#)

Junior full stack developer with previous hospitality management experience. My coding experience comes from a bootcamp, freelancing, and personal projects I've built over the past year using JavaScript, React, and Next.js. I am adaptable, fast-learning, and team-oriented, with strong problem-solving skills. I thrive under pressure and take pride in delivering high-quality work.

FRONT END - HTML, CSS, JS, REACT, NEXT JS, TAILWIND, VERCEL

BACK END - NODE JS, POSTGRESQL, SUPABASE, REST, APIS

OTHER - GITHUB, VSCODE, NOTION, JIRA, AGILE, FIGMA, CI/CD

Experience

Freelance & Learning

JUNE 2024 - PRESENT

- Delivered a pixel perfect portfolio website for a graphic designer.
- Currently developing 2 websites for a sports consulting company and a podcast.
- Solidified my knowledge and improve my skills through working on some personal projects.

School of Code

FEBRUARY 2024 -

JUNE 2024

During the last four weeks I worked in a team of six solving a real stakeholder's problem.

- Implemented a website scheduling application in under a month.
- Set up the back end so the stakeholder could create and manage events.
- Created the user interface so users can book slots, contact the team, etc
- Gained industry-like experience working in agile sprints, daily stand-ups, and maintaining continuous communication with the stakeholder and the team.

During the first twelve weeks of the bootcamp I learned new skills, technologies, and frameworks through hands-on workshops.

- Worked in different trios every week, improving my communication, teamwork, and adaptability.
- Developed a structured approach to planning and problem solving by breaking tasks down.

Overall this experience provided me with the skills needed for a Full Stack role.

Other experience

Managerial Roles in Hospitality

These roles have given me skills I can transfer to the tech industry.

- Faster and better critical thinking, decision making and problem-solving skills.
- Clear, concise communication and stakeholder management.
- Adaptability, resilience, teamwork and collaboration.
- Attention to detail in a dynamic environment and multitasking more effectively.
- Ensure operational efficiency, leadership and project management.
